## PROFESSIONAL SUMMARY

---

Experienced web developer with two years in the field, specializing in crafting user-friendly web applications. I've successfully led various development projects, ensuring clear goals, timelines, and effective communication with both stakeholders and team members.

## EXPERIENCE

---

### Edgistify

Full Stack Web Developer

May 2023 – Present  
Thane, Maharashtra

- As a vital member of Edgistify software developer core team, actively collaborated on the development of EdgeOs and RMS systems, utilizing Vue.js, Nuxt.js, Node.js, and Adonis.js technologies.
- Collaboratively contributed to the development of diverse APIs and frontend designs for a In-house hyperlocal rider management system, specifically designed to enhance the efficiency of handling hyperlocal orders.
- Implemented integrated APIs to seamlessly connect with multiple courier partners, including DTDC, Xpressbees, Ecom Express, and Shiprocket, to streamline and optimize ecommerce order fulfillment processes.
- Developed a comprehensive suite of order creation APIs and frontends catering to ecommerce, hyperlocal, and B2B orders, alongside multiple APIs and frontend designs for seamless invoice and label generation, leveraging AWS S3 bucket for efficient storage solutions.

### Sugar Cosmetics ( Vellvette Lifestyle Pvt. Ltd. )

Full Stack Web Developer

May 2022 – May 2023  
Mumbai, Maharashtra

- Implemented end to end Juspay frontend development and integration using Next js.
- Implemented the frontend for the Sugar Fam rewards feature, utilizing API integrations and incorporating animations to enhance user experience.
- Collaborated on integrating Razorpay's payment functionalities, including the convenience fee, into the application.

### Quench Botanics

- Developed frontend for homepage of Quench Botanics website, using Javascript, Next js.
- Created a payment page for guest and login users on Quench Botanics website, integrating Razorpay.

### Sugar POP

- Developed frontend for homepage and payment page of Sugar Pop website using javascript, Next js, resulting in improved user experience and increased website traffic.
- Upgraded Sugar Pop website, implementing new features such as convinence fee, resulting in increased customer engagement and higher sales conversion rates.
